# Free, On-Demand CE

## Dental Antibiotic Stewardship: Prescribing for Prophylaxis and Intraoral Pain and Swelling

Created for dentists,  
 physicians, physician  
 assistants, nurse practitioners,  
 pharmacists, and other  
 healthcare professionals.

As recommendations for antibiotic use in oral health care continue to evolve, clinicians play a key role in protecting patients and public health by practicing antibiotic stewardship.

Complete this **1.5-hour video activity** to learn about current guidance and strategies for appropriate prescribing.

This activity focuses on antibiotic prophylaxis for infective endocarditis and prosthetic joint infection, and the urgent management of intraoral pain and swelling.
